

# Dragon Section Leader Application

Name \_\_\_\_\_

Instrument \_\_\_\_\_

Leadership means more than a title or feeling of superiority. The purpose of a section leader is to be responsible for and dedicated to your section. If appointed leader, the success or failure of your section will be entirely up to you. The job is not one to be taken lightly. Your role, if chosen, will be to teach marching basics, rehearse music and movement with your section, schedule time outside of full rehearsals to be together to work on sound production, tone control, volume, breathing, marching style, body posture, horn angles, body and horn visuals. You will also be responsible for getting your section at all rehearsals early and ready to go. You will take roll and deal with problems relating to you section. You will be responsible for helping your section with questions during the season and off. You will become the TEACHER to the student. You will be asked to help with Dragon events. Above all, YOU will be the ENCOURAGER of the group. You will be under pressure from the teaching staff to get the job done and will still need to be the motivator for your section. **Are you ready for this?** It's not what you've seen in the past. You are beginning the steps of true leadership. This is what it's about. With all of this in mind....

Briefly describe why you think you would be a good Section Leader:

List Two things you will do to become a better band.
